New York Oct. 19.—The Herald's Albany special says: There was an important meeting of the directors of the New York Central railroad held to-day, at which the chief question of discussion was who shall control this immense corporation. It appears that deeply interested parties have run up the stock from 90 to 119, the latter being to-day's price. The entire capital stock is \$42,000,000. The party technically known as the South Shore party, made up of Western railroad men, hold about \$8,000,000 of the stock, an express company some \$6,000,000, and other parties other large amounts. The point to be accomplished is to so work the combinations of these various holders of stocks as to totally oust the present board and give the control of the direction to one set or party of them. BUFFALO, Oct. 19 .- The Board of Su-BUFFALO, Oct. 19.—The Board of Supervising Inspectors of Steamboats, in session in this city for the last ten days, adjourned to-day. They have done a great deal of business and have cxamined numerous devices appertaining to the saving of life in steamboats. One of the most valuable was the life saving tackle of Brown & Levett, which attracted universal attention, it being a sure mode of disengaging a boat instantaneously from the tackles by one man, either under fall speed or otherwise. It received the unanimous and unqualified approval of the Board. The radicals are very much excited and threaten forcible resistance in case the Commissioners are removed. In view of the fact that they are greatly in the minority here they threaten that aid will be obtained from Pennsylvania. A bad feeling exists which may lead to more important disorders than those of a local character.

COMMERCIAL AND FINANCIAL.

New York, Oct. 19.

The Post's money article says:
The loan market is easy at 4@5 per cent for call loans, and 5@6 for discounts. The plethora of unemployed capital continues to promote the expansion of credits, and to cause the rates for loans to favor the borrow-er. The condition of the money market is very anamalous; at this season of the year a contraction is always exhibited for the loans of the banks are drawn in because the deposits which form in part the basis of those loans are diminished, now the banks are increasing their loans and the speculative mania is thus stimulated in a very moderate degree, rendering the coming revulsion certain to be the more mischlevous in proportion, as the expansion has been reckiess and passing all due bounds. The stock market is active but irregular. Governments are strong. Railroad shares are feverish and advancing. After the regular board the following were the quotations, the market being feverish and direcular: New York Central 1194. Eric NEW YORK, Oct. 19. Rallroad shares are feverish and advancing. After the regular board the following were the quotations, the market being feverish and irregular: New York Central 119½; Eries 13½; Hulson River 127; Reading 115½; Mich igan Southern 90½; Pittsburgh 90½; Chicage & Northwestern 50½; Toledo 120½; Rock is land 108½; Fort Wayne 109½. Foreign exchange firm; bills at 80 days on London arquoted at 107@107½; for commercial 108@108½ for bankers' do at abort sight 109½@109½. The Commercial's money article says:

probables theily to cover contracts of that character, sellers options of 30 days were taken at 48%, difference of 1½ from regular. Erie is again firmer and shows some symptoms of another upward movement; the price rose 1½. Fort Wayne is in demand at 10% (310%). Governments continue firm; foreign bankers are buying up old 5-29s apparently in anticipation of an active demand from Europe; the price advanced this morning to 115, and otherissues of 5-29s rose ¼(3½) in sympathy; 6s of 1881 rose ½; 7-30s are ½ better. Foreign exchange is decidedly firmer and more in demand. Money is in good demand; the rate, to brokers is now very generally 5-per cent on call; with exceptions to borrowers at 4 per cent. The anticipation of a demand for moving the hog crop, and also from the South, is influencing the rates with the banks. Discounts are steady at 5-36 per cent. Gold continues steady at about the nt. Gold of

the supply abundant. Call loans range from 4 to 5 per cent, and first-lass borrowers get accommodated at the lower rate. There is no change in discounts and prime paper passes at 5:66 per cent. The gold market was disturbed by a variety of rumors towards the close of the day, and among them the report that the bonds had advanced in London. There was astrong disposition to sell, which resulted in a decline to 147%. The great fear of sales by the Government, or large purchases of 1887 and 1888 for gold, which would come in the market, tends to check any movement for an advance in the premium. The market for exchange was firmer again today and moderately active. Prime bankers bills are quoted at 103% (2109. The Government securities remained firm to the close of the day and were in demand at our last quotations: Registered '81, 113% (113%; coupons '83, 113% (113%; 5-20 coupons '84, 110% (117); 5-Northwestern 57@57%; Northwestern proced 75%@75%; Fort Wayne 109%@109%. The Dry Goods Market. The dry goods trade opens with only a moderate business this morning, but with a continued firmness on the part of holders of goods. The decline in cotton which is as yet very slight, is mainly to be attributed to the decline in gold, is not taken asany indication of any more favorable reports from the coming crop; prices are, therefore, maintained, and with the light stocks of all kinds of domestic goods there is no pressure to sell.
